SENATOR F. LEWIS: Now the Governor said he could only go seven and a half. Is that right?

SENATOR LABEDZ: That's correct.

SENATOR F. LEWIS: Well, Senator Labedz, I'll tell you what. I'm not going to fight the issue of taking that amendment off. I want the record to reflect that what we attempted to do and I think when the property owners, particularly in my district, get their tax assessments like they're to in Douglas County, there will be a concern that all of them will need a little relief and that \$4,000,000 would have gone home on that. So for the record, for the record, Senator Labedz is not interested in individual property tax relief in this particular bill. For the record, she doesn't want that relief to go to anvone in Douglas or Sarpy County or any of those that are reevaluated. For the record, I believe they ought to have some of the relief. Now secondly, now, Senator Labedz, with those remarks, have at it. I could care less if you some of the relief. keep the amendment.

SENATOR LABEDZ: Thank you.

SENATOR R. LEWIS: Senator Newell.

SENATOR NEWELL: Mr. President, members of the body, Senator Labedz, is it possible at this time, and I know I asked you in private and I'd like to do it publicly, to lay this bill over for a couple of days. The reason I ask for this, for you to lay it over or to concede to laying it over is because I have some amendments and I don't want to put them up right now because while I have done some work on the fiscal impact and some other things, I would like to try to work out the differences between the Department of Revenue's fiscal analysis of the bill and the legislative staff's fiscal analysis of the bill and see if we can understand a little better what the differentiation is. Now T think this body ought to be aware that there's a substantial impact between difference of impact between the two pieces of legislation and I think that we need to take some more time to look at this, to look at it's real effects to find out why there's differences between our fiscal analysist and the Revenue Department and come to some sort of understanding and then I would offer my amendments when I'm more sure that those amendments are going to be accurate. I can offer them now if you insist to pushing the bill to-I can offer the amendments. I'm not going to be quite as sure what the impact is etc., but I will offer those amendments anyway so I would prefer if we would put this off so we can be more sure. I may not have to offer all the amendments etc. that I have on this legislation. So I would appreciate it if you're willing to lay it over for a couple of days. I think that would be adequate. I'm not trying to delay the bill. I'm in fact, honestly trying to work out some amendments that I think will be in the best interest of the citizens of Nebraska, to benefit your legislation. I have nothing out there to protect anymore as you well know and I would hope that you would assist Thank you. me in this endeavor.

SENATOR R. LEWIS: Did you want to respond to that, Senator Labedz?

SENATOR LABEDZ: Yes, I do. Regretfully I will have to object to laying this over for a couple of days. We've had this now
